## Just a quick update for the Hosmer Family

What a crazy time we are living in. As we are all taking measures to be safe, God is still moving here in Japan. We were blessed to minister a Faith Promise and other services with the 1st UPC church (Rev. Marsh).

In Uruma City we are still conducting services, but taking many safety precautions such as taking

temperatures at the door and making sure we all stay safe. Distances from each other.

We had a Japanese man come and get baptized in Jesus name.

Miyako preaching point is doing great and they are experiencing growth in numbers in attendance.

Nago Preaching point has temporarily been moved to an active park to help distance ourselves.

We have been doing bible school as normal on Friday nights. A few have to log in via video conference to attend.

Daily we are meeting for devotionals via video conference and seeing a great hunger for deeper areas of prayer.
