## Just a quick update for the month

- This month we have focused some special teaching on Friday nights for evangelism. Topics like how to teach a bible study, How to win souls, How to care for people etc. We are expecting to see a great influx of new souls coming in very soon.
- We just got a new Aimer in and we met her at the airport. We took a couple of days to see some sights here in Japan. I believe she will be a big blessing to the work. She is going to teach us on how to do bible quizzing and help with our youth and children ministries.
- We took a few days off and traveled to Hokkaido Island. We both have never traveled that far north in Japan before. It was just a few days for a mini vacation to celebrate 30 years of marriage. We had a great time and wish we had taken a few more days! God is so good.
